Letters to the Editor

He Would Listen
to Mme. Nhu

~~REGARDING~~ your editorial supporting the State Department's refusal of a visa for Mme. Nhu, look, fellows, our CIA arranged for the murder of her husband; the least we can do is listen to her complain. Or are you afraid of her?

As for your flat statement that Khanh and company are helping "stave off the communist threat to all Southeast Asia," I think you'll find he, and our Defense Department, are doing more to make communism popular in Asia than Ho Chi Minh and Mao Tse Tung combined. All Ho and Mao have to do to spread the communist good word is sit back and let Gen. Taylor and Gen. Khanh do their best to sell democracy and free enterprise ~~THEIR way—with war.~~
